

# FORD F-150 CAB-ON REPAIR SYSTEM

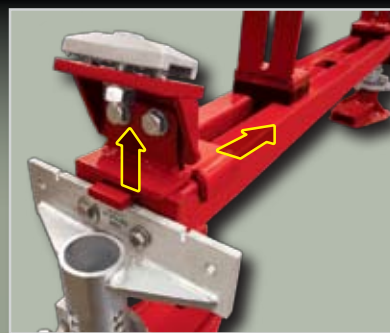

CHIEF  
DESIGN BASED  
ANCHORING SYSTEM

- Repair Damage Without Removing The Cab!
- Uses Equipment Already In Most Shops
- Fast To Set Up. Easy To Use
- One Of The Most Affordable and Profitable Systems You'll Own!

Chief's F-150 Cab-On System has been designed to work with Chief's patented FAST Anchoring System and can be used on any Chief frame rack as well as many competitor racks.

Chief's Cab-On System is the only system of its kind approved by the Rotunda program, and the only one offering the combination of speed, accuracy and affordability you need.

Chief's heavy-duty anchoring clamps adjust both horizontally and vertically to quickly and accurately secure the vehicle, and are engineered to the precise angle of the truck's pinch-welds.

Chief's proprietary Rigid Cab Mounts prevents deformation to the cab floor and insures the vehicle does not sustain additional damage during repair.

Contact your local Chief distributor or call Chief Automotive today for more details.
