

DATUM HEIGHT CLAMPING ADAPTERS

An increasing number of vehicles are requiring additional space between the vehicle and the Universal Measuring System. To allow the measuring of these vehicles without removing suspension components, Chief has Datum

Height Adapters available. These will raise the car either 2 inches (51mm) or 3 inches (76mm). This option will be called for in a special clamping note on the data sheet.

Ref.	Part No.	Description	Qty.
	519330	Datum Height Adapter, Set of 4	1
1	514331	Adapter Plate	4
