Collision Solutions Network Names Chief an Exclusive Preferred Partner

Chief to supply structural repair and measurement equipment to members throughout Canada

Madison, Ind. (Feb. 2, 2010) – Collision Solutions Network (CSN), the largest collision repair network of independent operators in Canada, has named Chief Automotive Technologies its only Preferred Partner for Structural Repair and Measurement Equipment. Under the agreement, Chief will offer CSN members and affiliates throughout Canada a full range of products and services to meet all their pulling, measuring, data and accessory product needs.

“Through our Chief Automotive partnership, we feel we have aligned ourselves with a like-minded industry leader in the collision equipment market,” says Jay Hayward, CSN manager of operations & network performance. “CSN chooses partners very carefully. Chief exemplifies a commitment to helping businesses be better through training, technologies, performance and progressive business practices. By partnering with Chief, CSN has further strengthened its ability to meet the changing needs and requirements of the collision industry.”

In addition to collision repair equipment, Chief will also offer technician, estimator and appraiser training through Chief University to the CSN network’s more than 75 nationwide locations.

“It is an honor to have been selected as one of CSNs exclusive partners,” says Robert Holland, Chief key accounts manager. “We are pleased to have the opportunity to provide CSN facilities with the equipment, specifications, training and support that will enable them to continue to improve their cycle times, increase efficiency and document their repairs.”

For more information about the full line of structural repair equipment and training available from Chief, contact your local Chief distributor, call 877-644-1044 or visit www.chiefautomotive.com. For more information about CSN, visit www.csninc.ca or call (866) 400-4276.

About Chief Automotive Technologies
